

Want an internship position at Triple Topping? It's a great way for you to learn more about your future career. Remember an internship is not about you working for free, but about the company helping and guiding you.

1. We only take interns that are part of an education or job program.
2. Being an intern is about us helping you learn more about your future career. We want to support you fully and are therefore only taking one intern at a time.
3. As an intern you become an equal part of our team, but we all know you are here to learn, and that you might have a part time job on the side.
4. Send your application to [astrid@tripletopping.com](mailto:astrid@tripletopping.com)

What to put in your application:

1. Who you are.
2. A bit about what you are studying.
3. What you want to learn during your time at Triple Topping.
4. A website/PDF with a few examples of your work. No need to be all fancy; game jam projects are perfect.
